

# UP SURFBOARDS.

A brand rooted in the Basque Country, dedicated to creating boards that not only make getting started in the sport easier but also accompany surfers throughout their evolution. Over time, the brand has expanded its range, offering various lines of softboards and wetsuits, as well as accessories and surf apparels, always committed to meeting the needs of the surfing community.

2027 SEASON

[www.upsurfboard.com](http://www.upsurfboard.com)

Every season brings new waves, new ideas and new reasons to get in the water. For 2027, we are taking another step forward by building on what we know, listening to what surfers need and continuing to evolve the collection we have created over the years.

We believe in developing what already works, improving every detail and creating more options for more surfers. That means expanding our most established ranges with new shapes and sizes, making our boards more stable and versatile, and improving the products that accompany every session in the water.

The Enjoy Series grows with new shapes and new sizes — 6'6, 7'0, 7'6 and 8'0 — featuring wider and more stable designs that make the range even more accessible and versatile. These new shapes provide greater stability underfoot while maintaining the fun and easy-going character that defines the Enjoy Series, making them a great option for different surfers and a wide range of conditions. This same approach continues with the School Series, where we introduce the new Monster models in 7'6, 8'0 and 9'0. Designed with greater stability, these boards are made to give beginners more confidence and make the learning process easier, more comfortable and, most importantly, more enjoyable.

Our commitment to evolution does not stop with the boards. We have also taken the opportunity to improve our neoprene range, reinforcing the areas that are most exposed to wear and improving both durability and comfort. The result is neoprene designed to withstand more sessions while providing a better fit and greater freedom of movement in the water.

All these developments come from the same philosophy: keep what works, improve what can be better and create new options where they are needed. We are not changing who we are; we are expanding what we can offer. More shapes, more sizes, more stability, more comfort and more possibilities for surfers of every level and every age.

### **From your first wave to your next level.**

At Up Surfboards, our mission is to accompany every surfer throughout their journey — from the first steps in the water to years of experience and progression. We create surfboards and accessories designed for every stage, style and condition, so that everyone can find the right board to enjoy the ocean and keep improving.

We believe surfing should be accessible to everyone, regardless of age, gender or skill level. Our vision is to democratise surfing and turn it into a shared passion that brings people together around the world.

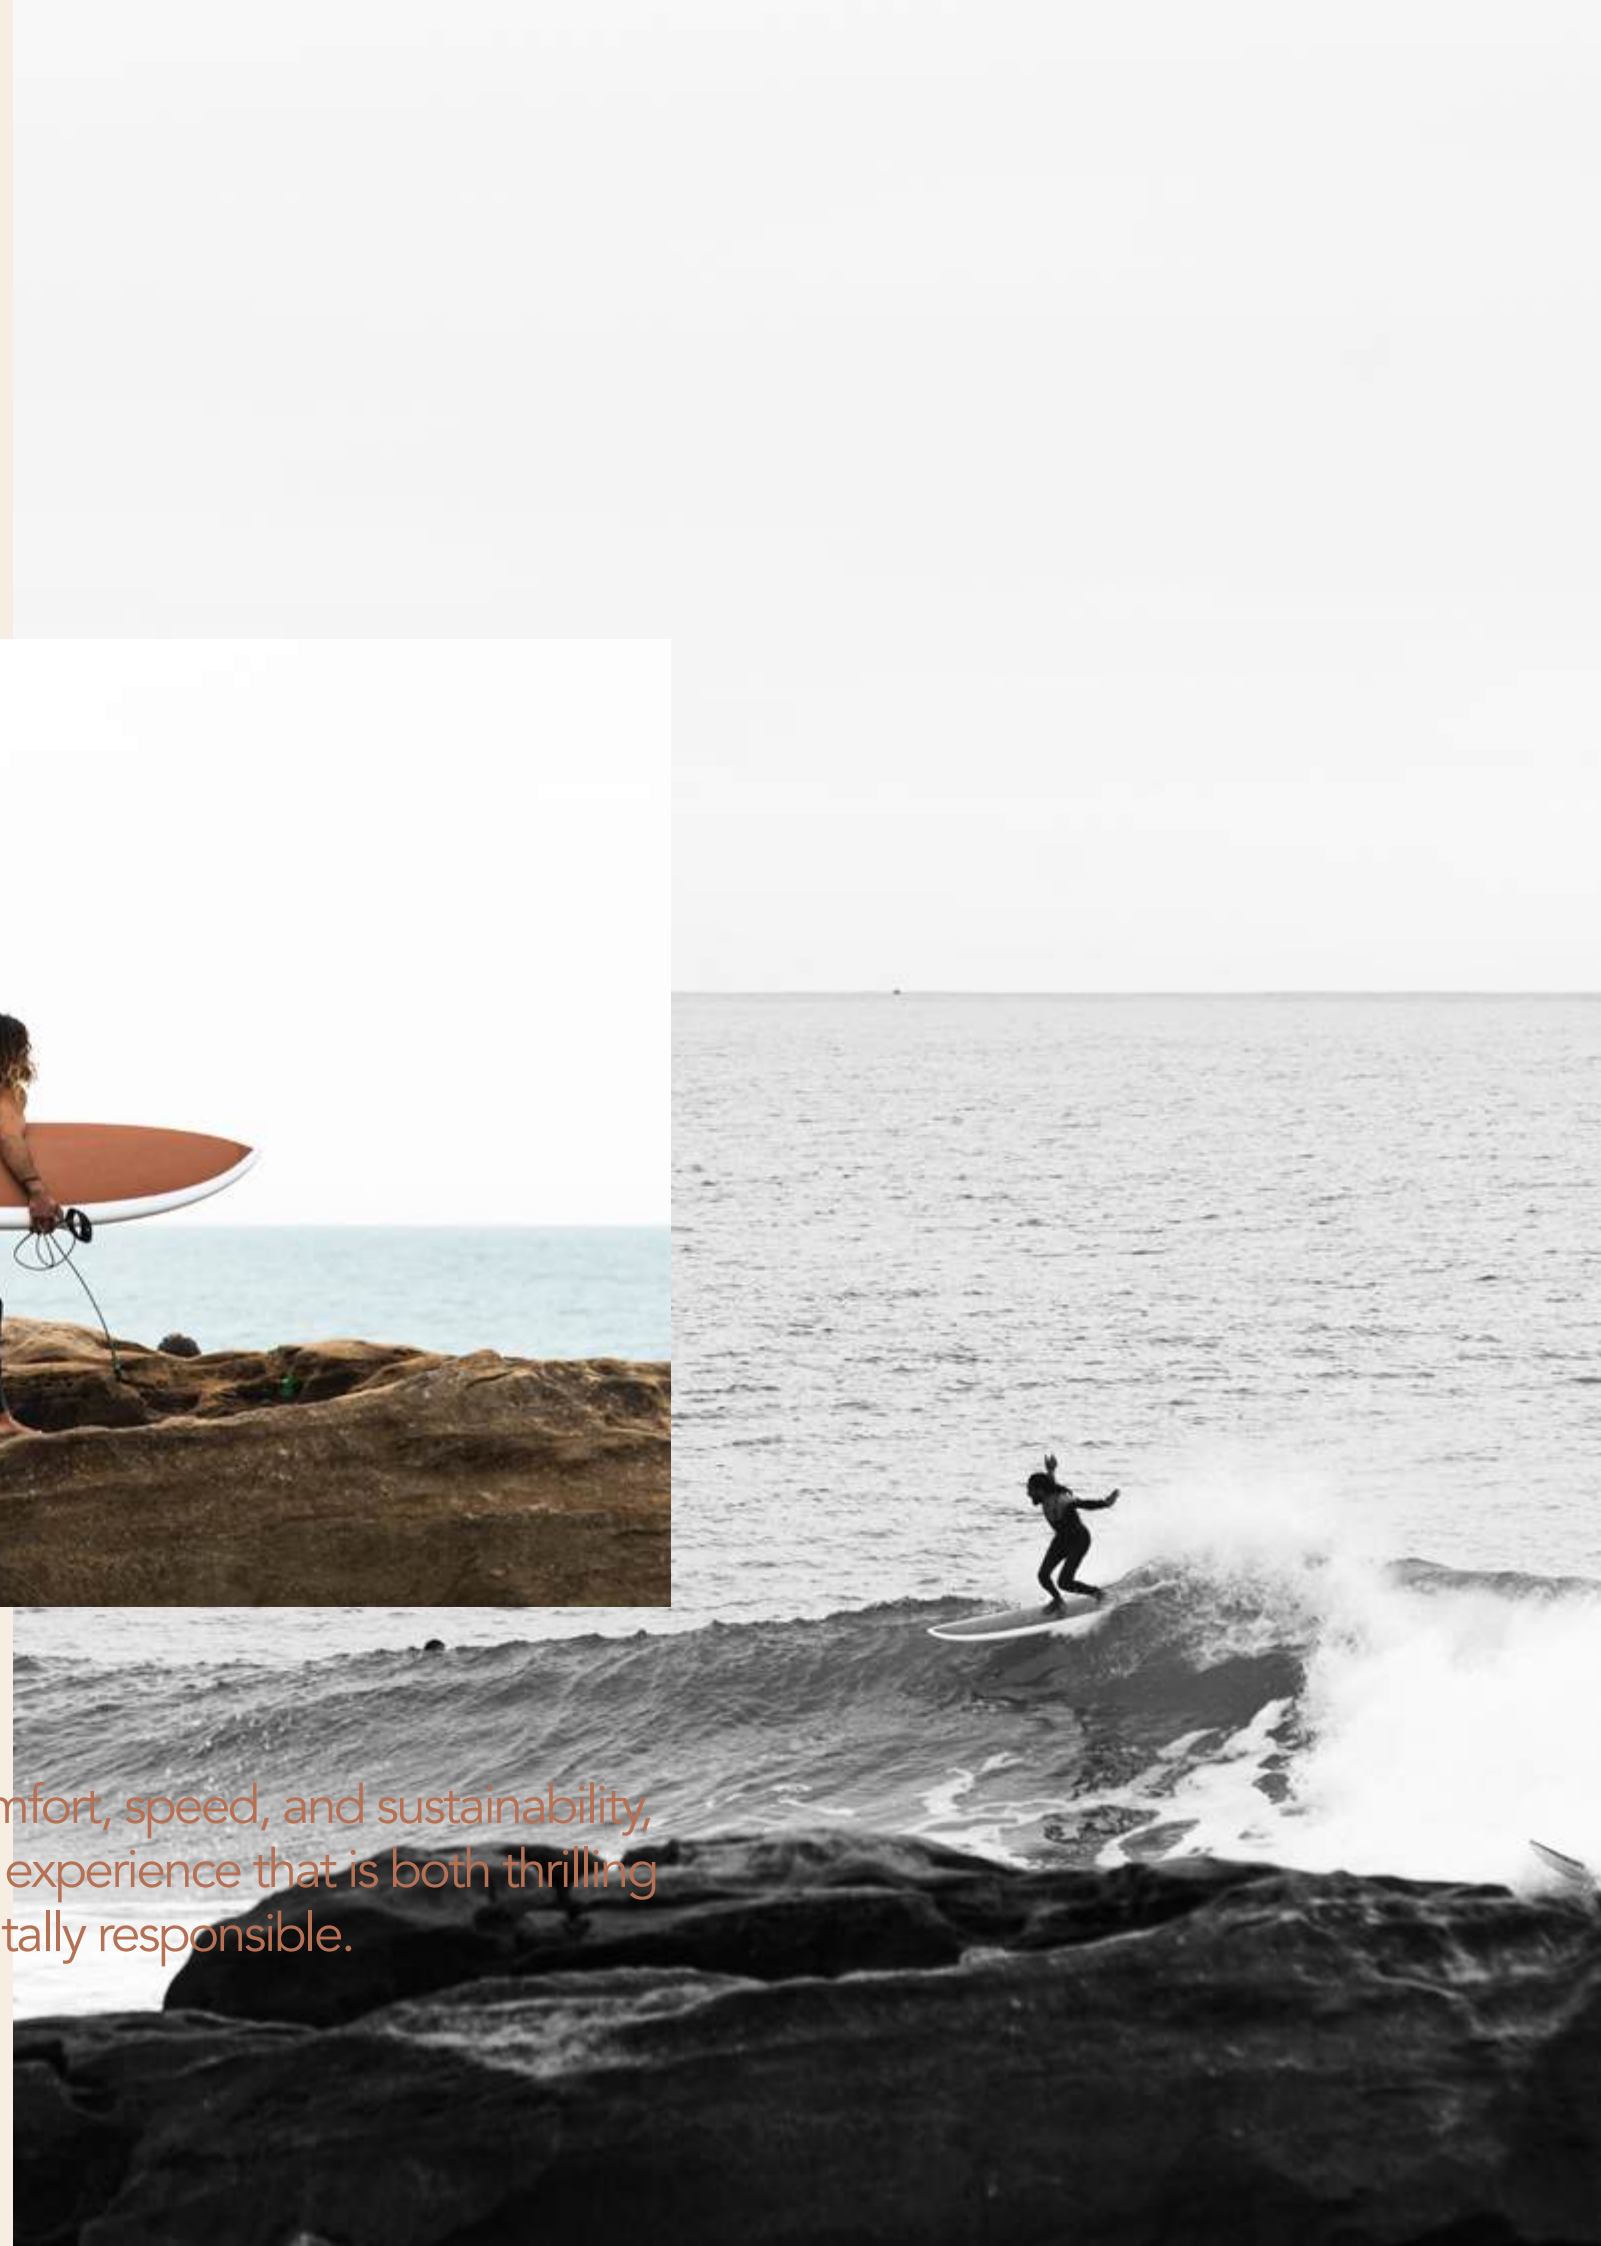

From timeless classics to cutting-edge designs and fresh shapes, our range is built to meet the needs of every surfer and every kind of wave. Driven by quality, sustainability and a strong sense of community, Up Surfboards is committed to creating boards that inspire progression, connection and, above all, enjoyment in the water.

**Explore our range and find the board that fits your journey.**

# hybrid

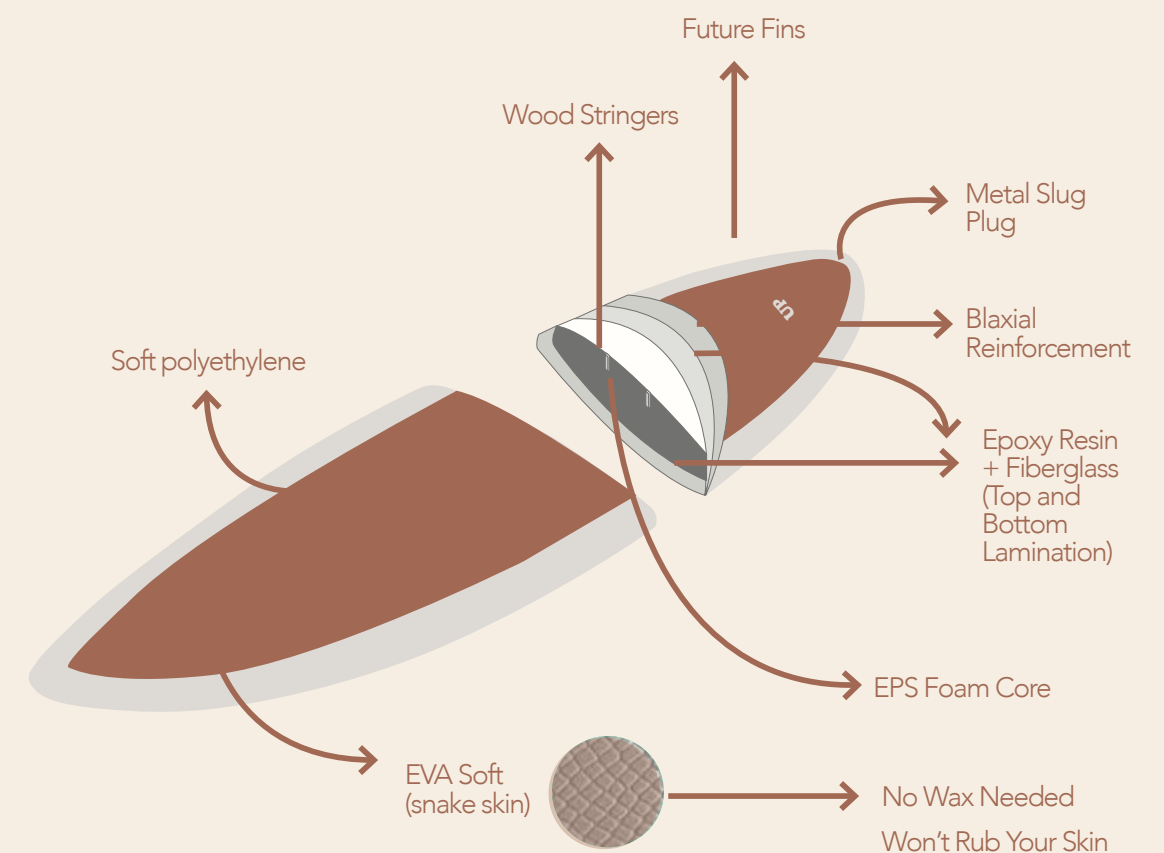

These surfboards combine comfort, speed, and sustainability, delivering a high-performance experience that is both thrilling and environmentally responsible.

If you are looking for a soft-deck surfboard with top-level performance, the HS SERIES range is for you. These epoxy-laminate boards feature soft decks, ensuring surfers stay safe while giving them the opportunity to catch more waves and enjoy a higher-performance approach to their surfing.

### Comfort, speed and sustainability

Surfboards that combine fibreglass and soft materials offer the best of both worlds: the stiffness and speed of fibreglass combined with the safety and buoyancy of a soft surface. This balance allows for optimal performance, ideal for both beginners and experienced surfers.

# hybrid

## HS1

Featuring a classic fish outline, this design will surprise you with speed and looseness. Its wide nose and low entry rocker maximize paddle power and helps you to get into the wave with ease. Try it with a keel fin setup.

5'5 x 20" 7/8 x 2 1/2" - 34L  
5'9 x 21" x 2 9/16" - 37L

## HS2

The most versatile board of the HS Series, designed with ease of use in mind, making it a great option for everyone. Whether you are an advanced surfer or a beginner transitioning from a softboard to your first hard-top, the H2 covers it all.

5'8 x 20" 3/4 x 2 7/16" - 33L  
6'0 x 21" x 2 6/16" - 37L

## HS3

This versatile all-rounder is, alongside our UP Surfboards best-seller, the perfect board for transitioning from a softboard to your first shortboard or hard-soft. It provides the volume, stability, and paddling power you need when saying goodbye to your first softboard. You will be surprised if you take it to your favorite point.

6'6 x 21" 5/8 x 2 7/8" - 43L  
7'0 x 22" x 2 15/16" - 48L

## HS4

Does this shape ring a bell? This year we have decided to launch our all-time best performing design in HS Series construction. Our diamond-tailed flagship is now available in HS. This board will surf faster than you.

6.0 x 20" 2 3/4" - 36L  
6.2 x 20" 2 3/4" - 38L  
6.4 x 21" 2 3/4" - 40L  
6.6 x 21" 2 13/16" - 41L

# eternal

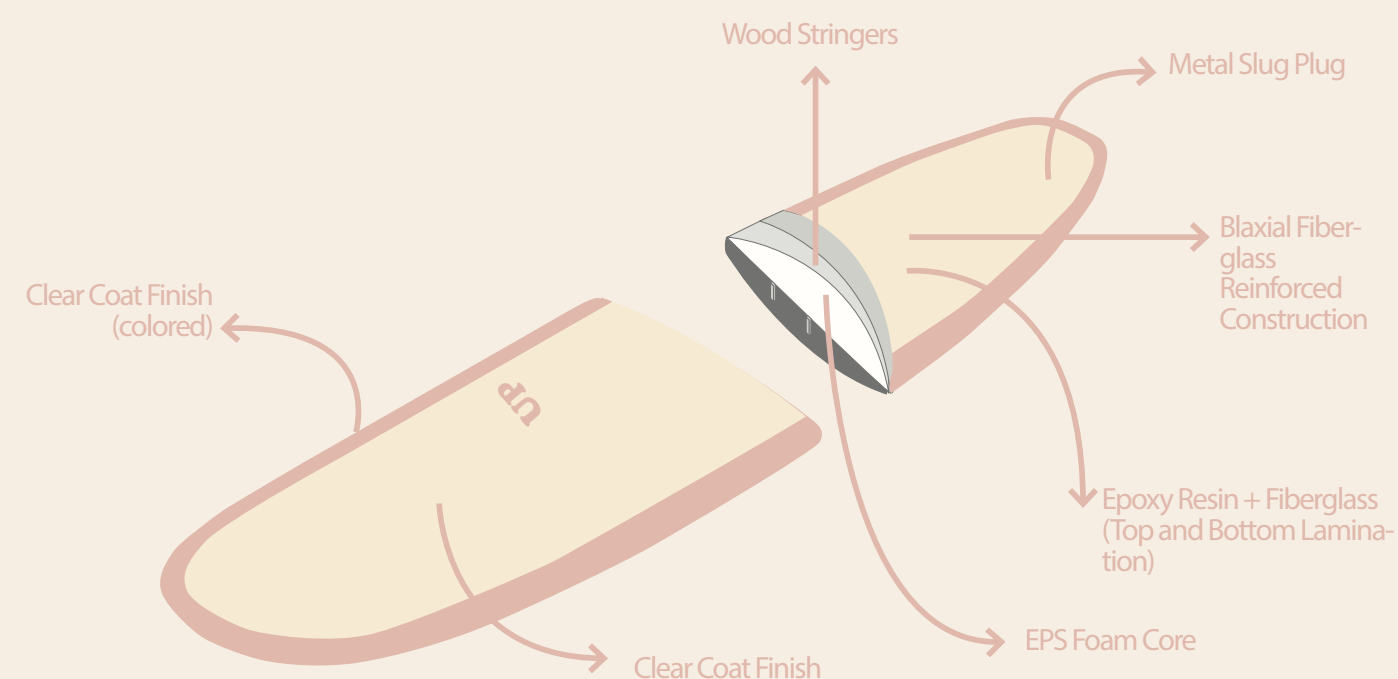

Lightweight, stable and easy to handle: the ideal companion  
for every surfer.

# eternal

The Eternal range stands out for its exceptional lightness and durability. These boards are designed to offer agile handling without sacrificing strength, ensuring a long lifespan and superior performance on every wave.

## Lightweight, stable and easy to handle

The Eternal range is light, stable and easy to handle, making it the ideal companion for any surfer. These boards are designed to offer impeccable control in the water, regardless of experience level.

# eternal

This board is perfect for the intermediate surfer seeking an easy-to-handle and predictable-riding surfboard. With a wide nose and low rocker, it allows effortless paddling and smooth take-offs. Ideal for progression and maneuvers, it also delivers an excellent controlled line, even on steeper, more vertical waves.

6'6 (198 cm) - 22 1/4" - 2 11/16" - 44 L

The modern, refined solution for those seeking the benefits of mini malibu-style boards. With a maximized nose area and a moderate entry rocker, this board becomes a wave-catching magnet. Its generous volume provides stability while maintaining excellent maneuverability.

7'0 - 22 3/4" - 2 7/8" - 52 L

The perfect choice for surfers taking their first steps or for experienced riders looking to catch plenty of waves with ease on soft, smaller days. The outline of this mini-malibu features generous, wide curves, including a full nose—providing stability on the wave and enhancing paddling power, allowing you to get ahead on take-offs even before the wave fully breaks.

8'0 - 22 3/4" 2 15/16" - 66 L

This 9'1" longboard is the ideal choice for those looking for a longboard that allows you to trim and noseride on smaller days while being able of busting turns when used with side bite fins on more powerful surf. With a 23 1/16" width and 2 7/8" thickness, it offers stability and effort-less glide, allowing you to catch waves with ease even in softer conditions

Length: 9'1"  
Width: 23 1/16"  
Thickness: 2 7/8"  
Volume: 74 Liters

# performance

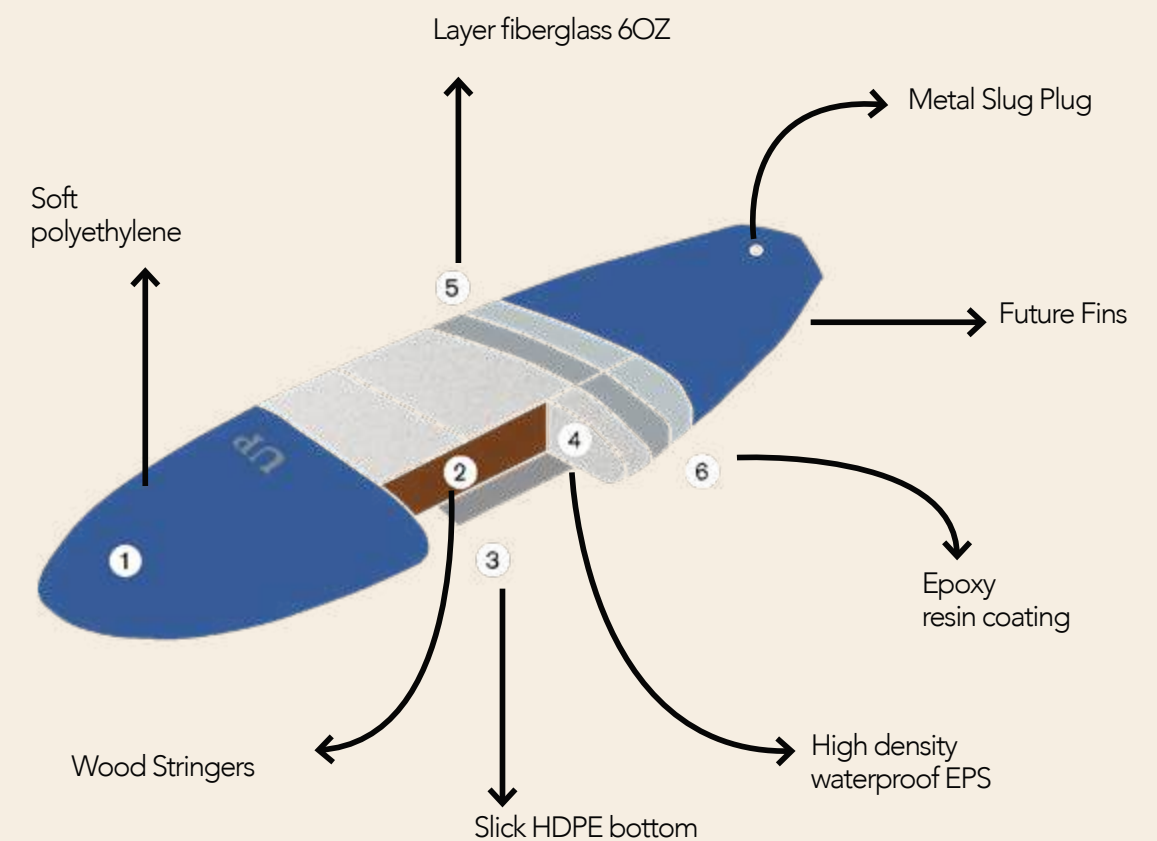

The ideal boards for surfers who want to push their skills to the limit.

# performance

For surfers who demand more from every wave, the Performance range delivers. The perfect balance of power and manoeuvrability for unrivalled performance, these boards are crafted to respond with precision, speed, and control in the most critical sections of the wave.

The Performance range offers the perfect balance between power and manoeuvrability, allowing for superior control and unrivalled performance on every wave. Designed for surfers looking to push their skills to the max, these boards guarantee a dynamic and precise experience in the water.

# performance

This year we present the Vampire Blood as a thruster. Keeping it's classic wing tail and fuller outline, it is a softop designed to surf as fast and as loose as your imagination can go. Try it on a beach break for maximum capacity.

|     |     |          |     |
|-----|-----|----------|-----|
| 5.2 | 20" | 2 3/6"   | 30L |
| 5.6 | 21" | 2 5/8"   | 34L |
| 5.9 | 21" | 2 11/16" | 36L |
| 6.1 | 21" | 2 3/4"   | 39L |

The Blade is our diamond-tailed performance flagship. We can't say enough about this design. This board just seems to work on everything, from slop chop waves to cranking points. This board will surf you out. Our family's favorite.

| 6.6 | 21" | 2 13/16" | 41L |

# Gony

Gony Zubizarreta

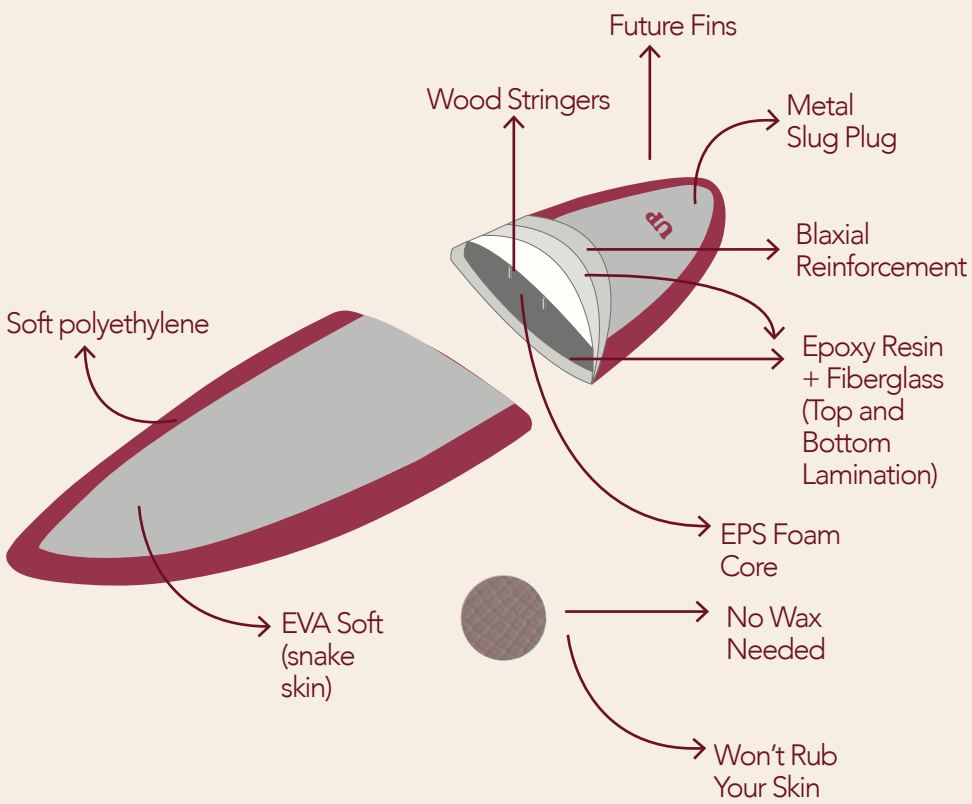

# Soft

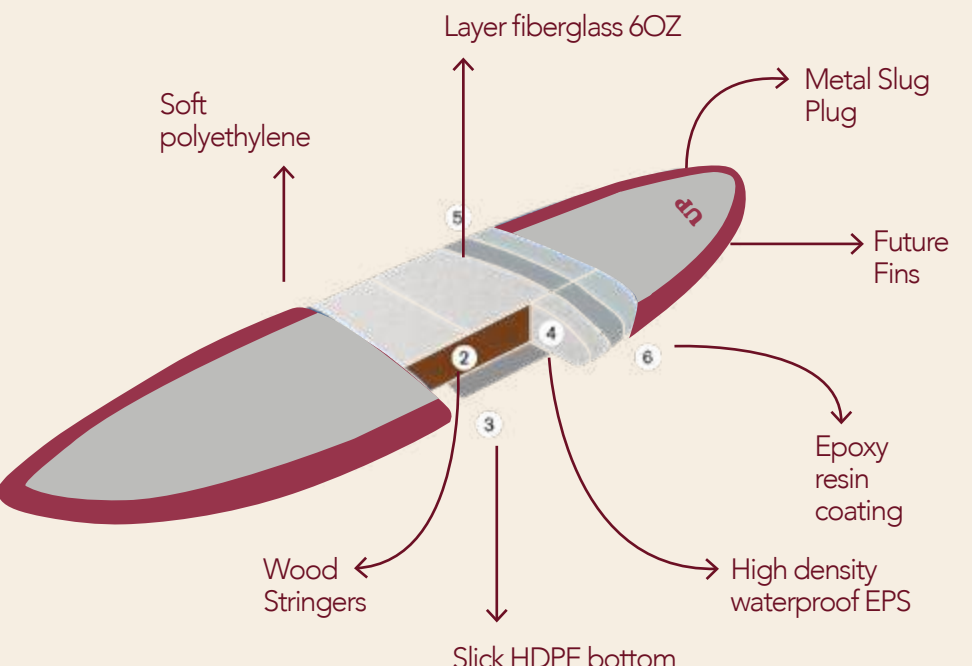

## GZ HS

Designed for surfers with more demanding skills, the GZ HS Series takes progression to the next level. This new construction represents the ultimate evolution of the softop: hard laminate boards with soft, non-slip decks. Built for performance-seeking surfers, they deliver the comfort and safety of a softboard while offering the speed and reactivity of a hardboard.

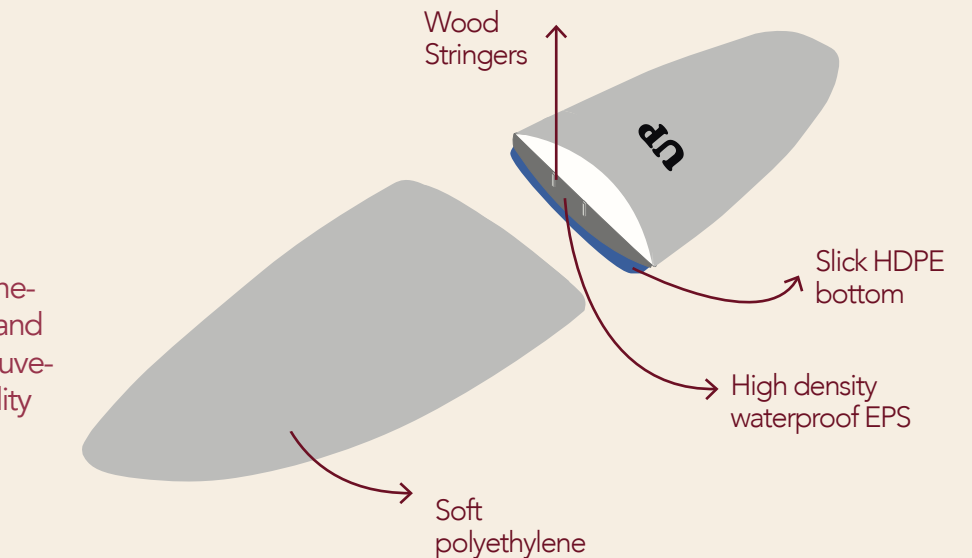

## GZ Performance

For surfers ready to push their limits, the GZ Performance Series redefines progression in the softop world. Built with a next-generation softop construction, hard laminate for speed and drive, combined with a soft, non-slip deck for comfort and safety—they represent the perfect balance between performance and control. For surfers who demand more from every wave, the Performance range delivers precision, speed, and power in the most critical conditions.

## GZ Enjoy

Designed specifically for younger surfers with growing skills, these boards feature a refined outline and lightweight core to maximize maneuverability without compromising stability making it ideal for the little ones.

# Gony

The Gony Zubizarreta softtop is the result of many approaches and tests that we have conducted throughout the years, always with the idea of achieving the fastest softtop on the market. This board makes the section.

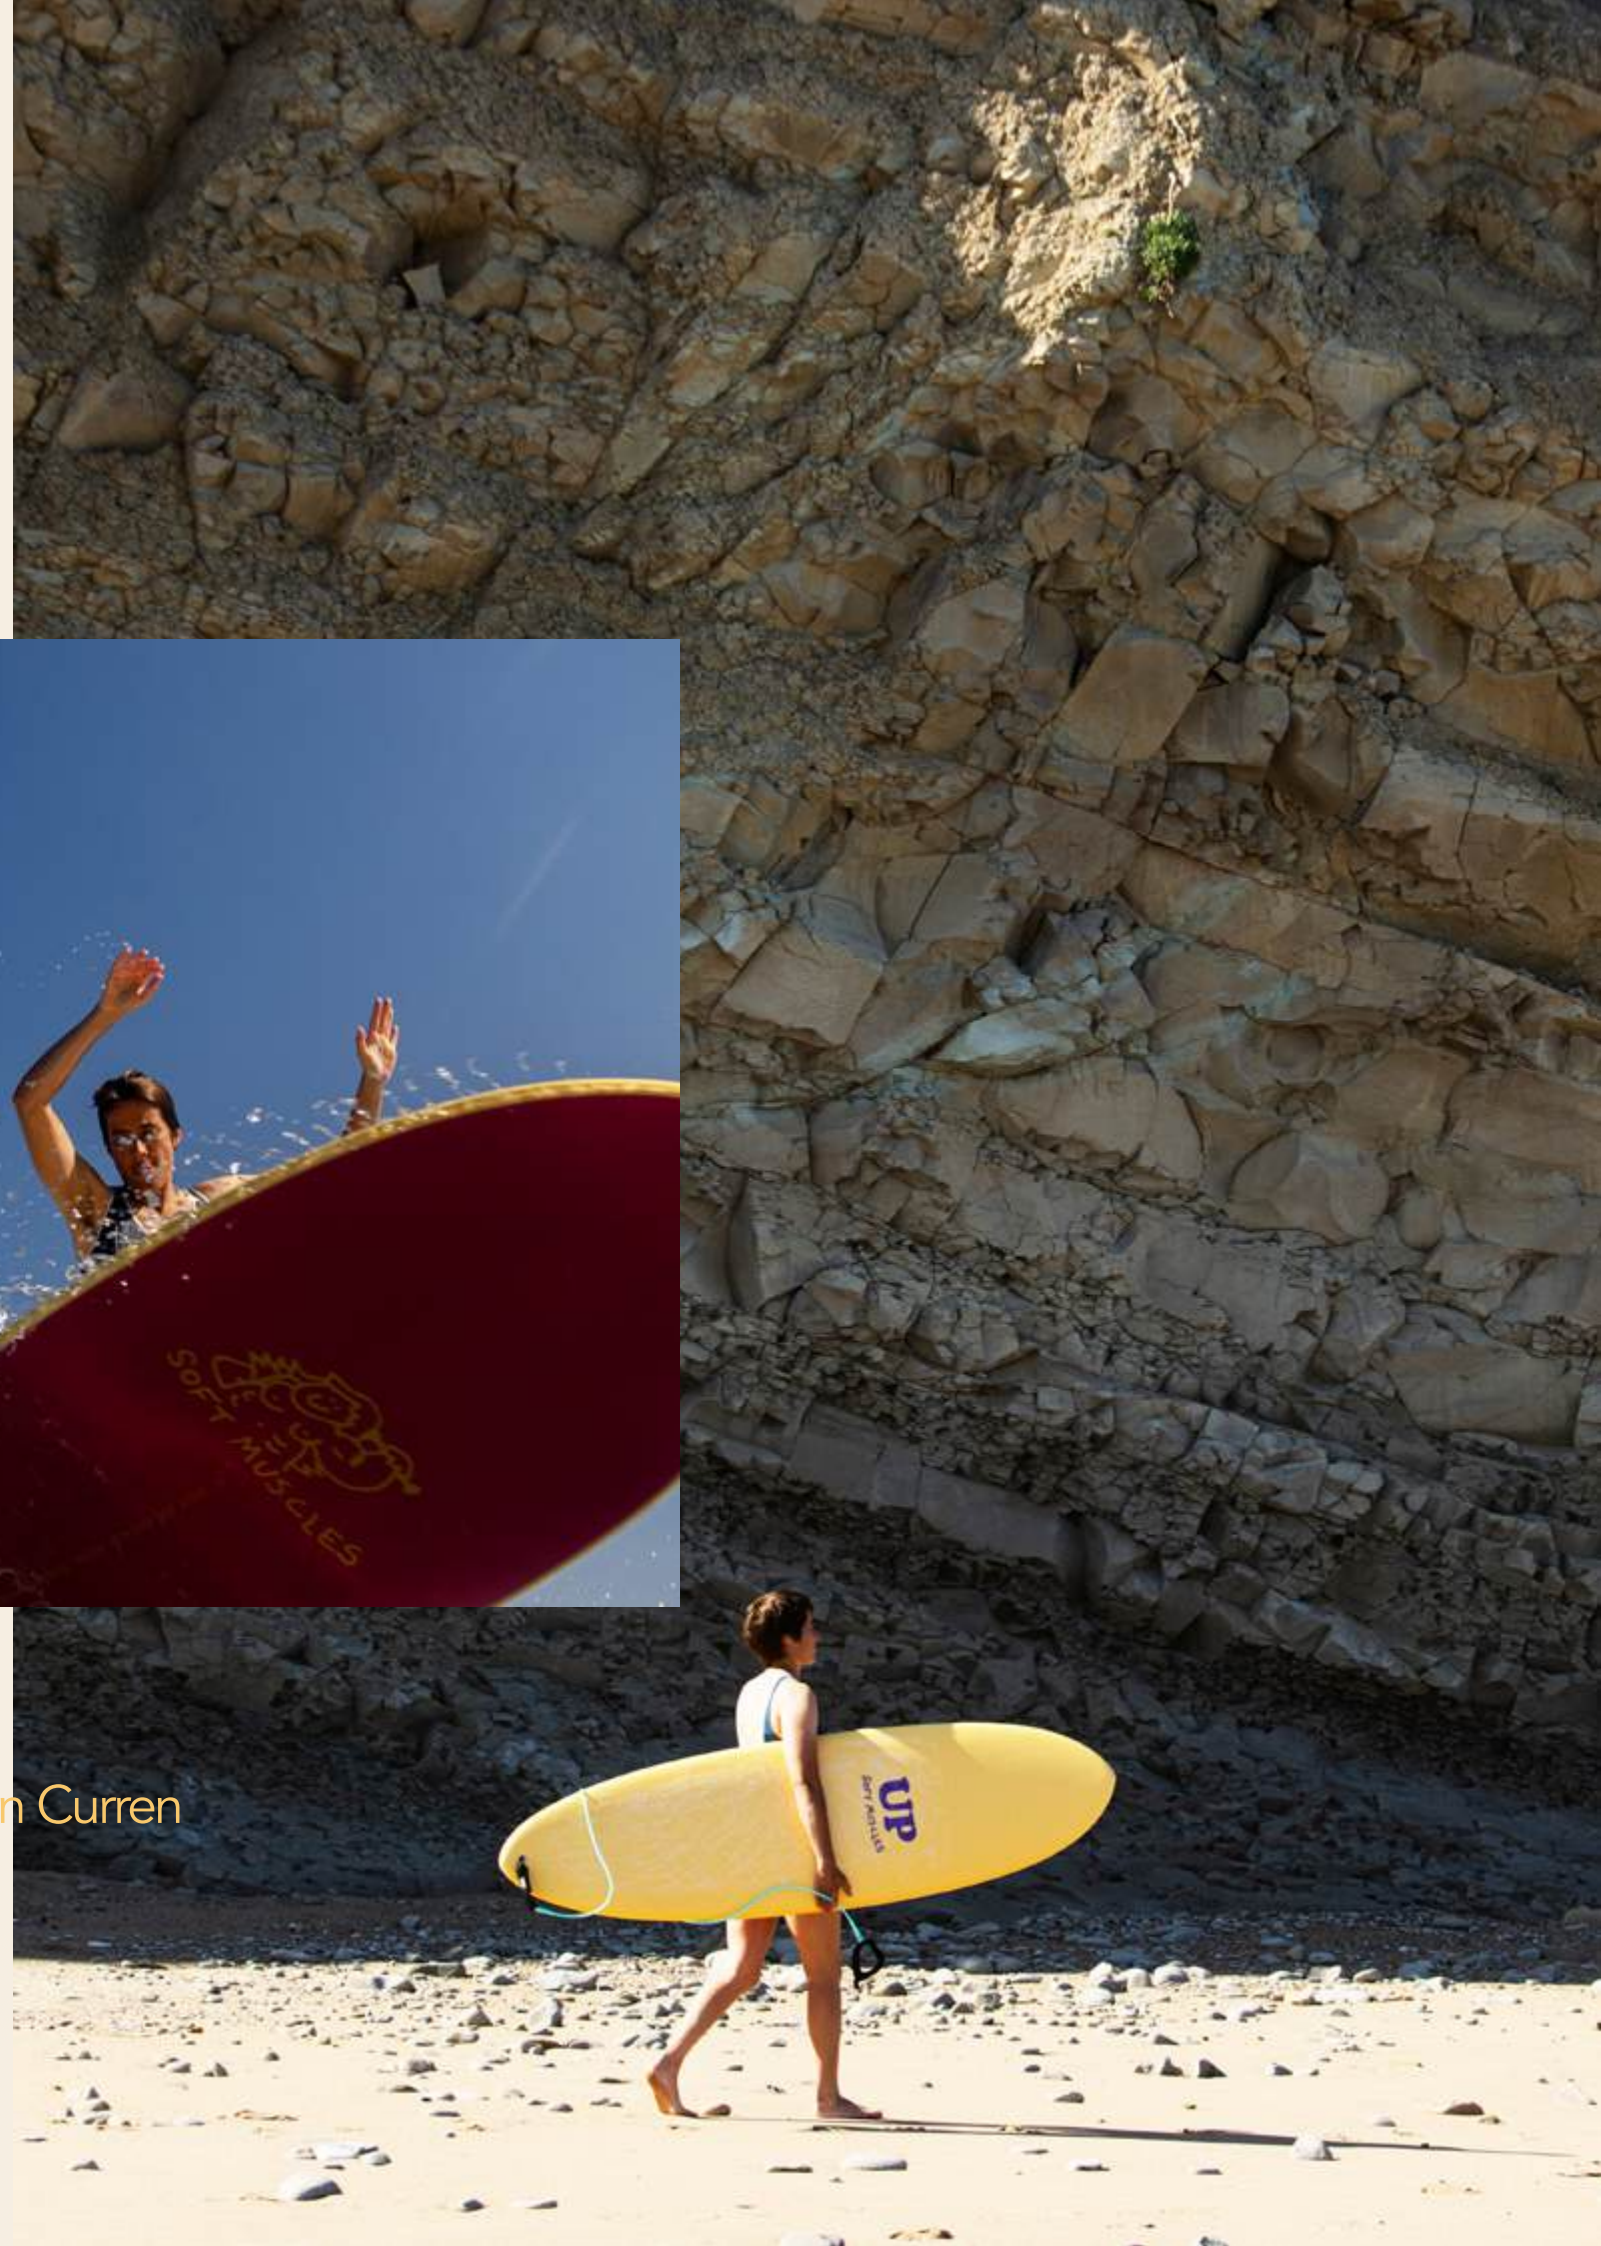

5'8 x 20" 3/4" x 2 7/16" 33L  
6'0 x 21" x 2 6/16" 37L

# lee-ann

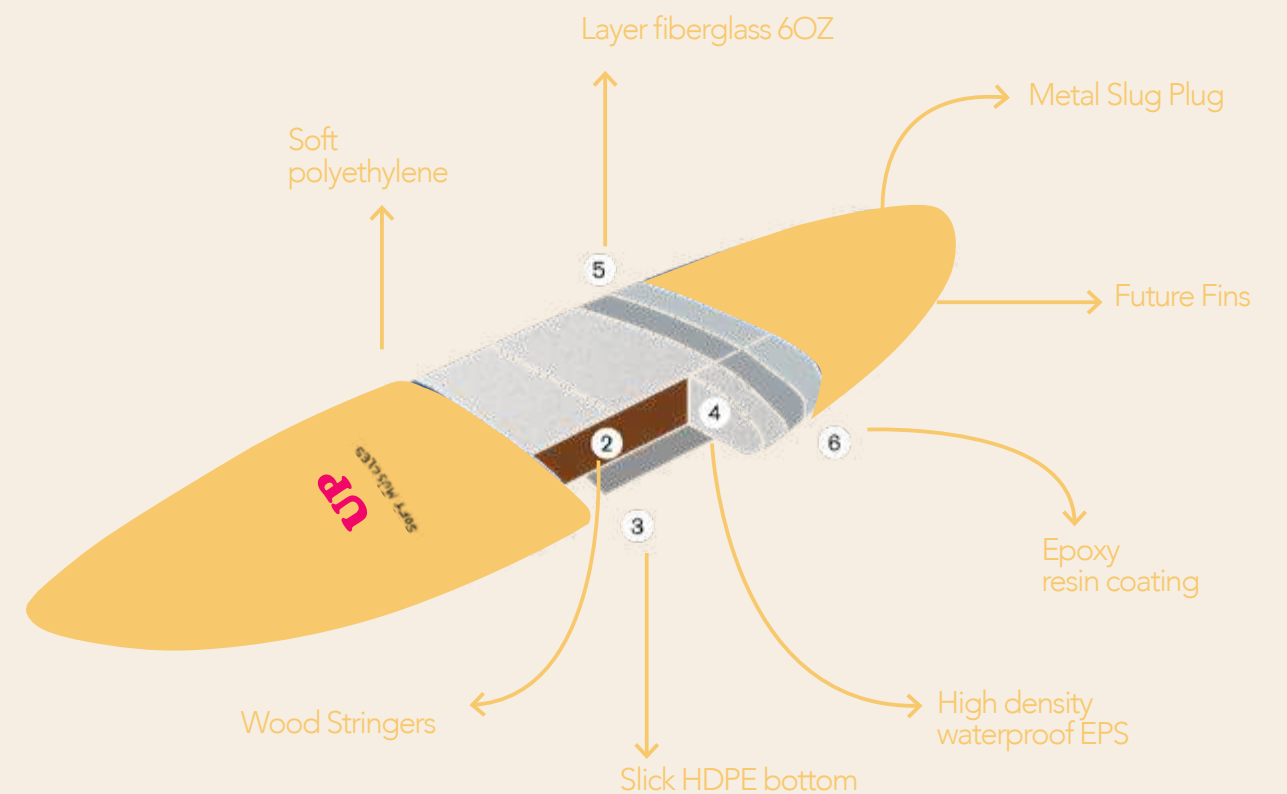

Lee-Ann Curren

The Soft Muscles, designed by Lee-Ann Curren, is the result of multiple approaches and trials aimed at creating the most versatile softop — both stable and maneuverable, and perfectly suited for a wide range of surfers.

Designed specifically for developing surfers, these boards feature a refined outline, reduced thickness, and a lightweight core to maximize maneuverability. With an optimized rocker and enhanced rail design, they deliver a responsive and controlled ride, helping surfers build proper technique and gain confidence across all conditions.

Perfect for surfers of all levels, Soft Muscles adapts to a wide range of conditions, making it the ideal companion whether you are refining your skills or pushing your performance in more demanding waves. Surfs exceptionally well in points.

6.6 21' 2 7/8" 43L  
7.0 22' 2 7/8" 48L

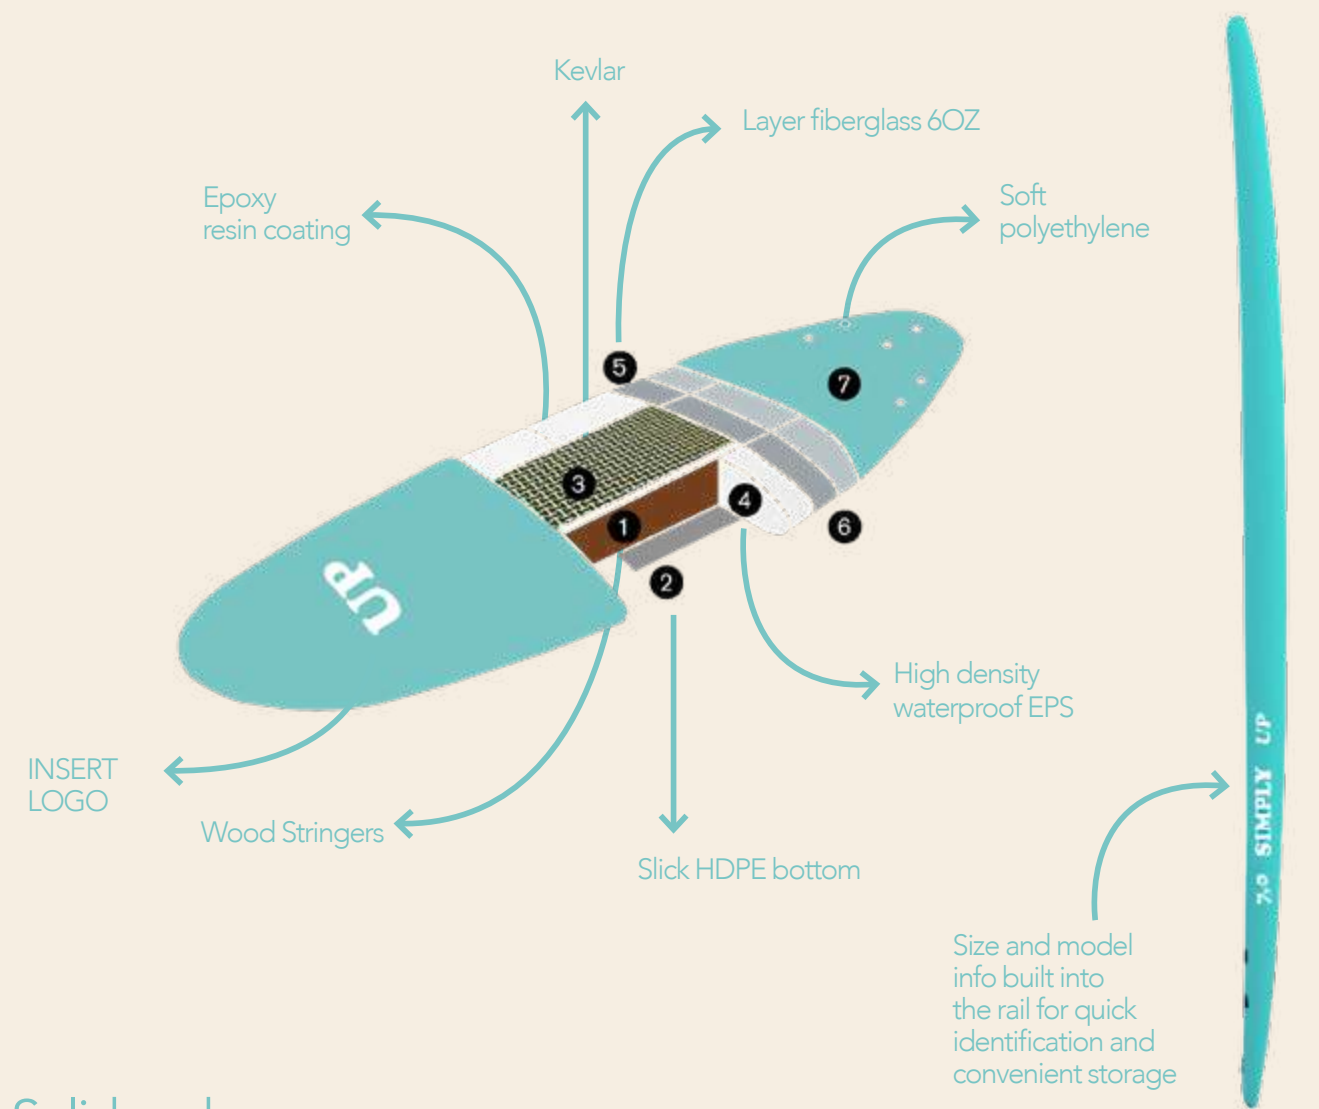

# school

A range created to share unforgettable moments, ideal for beginners of all ages and body types.

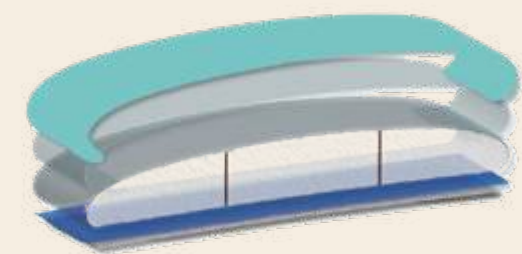

The School range is created to share unforgettable moments on the water, making it ideal for beginners of all ages.

### Solid and secure

The School range is designed to withstand anything. Solid and safe, this construction stands up to intensive use, offering durability and stability for learning and constant practice. Ideal for schools and surfers in training. With its solid and safe construction, this range makes challenges look easy, providing the stability and durability needed for smooth learning. It is the perfect choice for your business efficiency.
